

To be considered for a TA position, applicants must submit the following materials. **Priority will be given to students who have previously participated in our program and successfully completed one or more modules.**

1. Current CV

A detailed CV outlining your academic background, relevant experience, and any teaching or mentoring roles.

2. List of Previously Completed Modules

This helps us assess your familiarity with course content and determine appropriate placements.

3. Statement of Interest

A short explanation describing:

- Why you would like to serve as a TA
- Which module(s) you hope to assist
- How your experience and perspective would contribute to the course

4. Recommendation From a Previous Instructor or Mentor

Applicants should request a brief recommendation from the instructor whose module they completed.

(If you may be placed with the same mentor as last year, this step may be waived.)

Once you have been approved to TA for a particular module, you must pay the processing fee and register for that module.

Please upload or send all required materials to Andrada Costoiu at andradac@uci.edu.
